

Shocking Vision Of What Will Happen If Biden Wins

Published August 25, 2020 on Sid Roth's It's Supernatural Youtube

SID ROTH:

Hello, Sid Roth here and I'm going to introduce you to someone that most of you don't know, but I've gotten to know him because we just did a television show together. It'll be aired during the week of October 26th. His name is Ivan Tuttle, and 35 years ago he had an experience of going to hell and to heaven and he had information downloaded to him that is absolutely phenomenal. I know his pastor, I've checked with him. He said that he's an extremely reliable prophet. And Ivan called me a few days ago and he said, "Sid, I just had an experience with God in which it was almost like I was watching a movie of what would happen if Joe Biden became president of the United States. And then I made (I don't know if I told you this) I made a decision I wasn't going to let him do that. The reason is, One, I didn't think Biden would win, and Two, it was too scary. But when President Trump said publicly (after I heard this word from Ivan) exactly what Ivan saw in this movie, or this vision, I felt "Woe is me if I don't let you hear this." Ivan, what did the president recently say, that you told me?

IVAN TUTTLE:

Well, Sid, there were quite a few things that he said.

SID ROTH:

You said it before him.

IVAN TUTTLE:

Yeah I've said it before he (Donald Trump) said it.

SID ROTH:

Are you his speech writer?

IVAN TUTTLE:

(Laughs) Not exactly, no. I said it the day before he came out with it, yes. And what I talked about was what's going to happen if Biden and Kamala Harris get into office.

SID ROTH:

And so, by the way this is important. You went to heaven and hell 35 years ago.

IVAN TUTTLE:

Yes.

SID ROTH:

Why now are you talking about it? Why not 35 years ago?

IVAN TUTTLE:

Well, Sid there's a lot of reasons. One, I wasn't ready for it, and Two, the world wasn't ready for it. The things that were going to be coming out and what God was giving me that He said "This is what you need to release." The things that I saw had to wait until the proper time and the appointed time.

SID ROTH:

Right, and October 26, we'll release that show but right now the thing that is pressing is this presidential election. You know from God who's going to win, but you saw this, explain, was it a vision? Tell me the circumstances.

IVAN TUTTLE:

I'll tell you exactly what it was. It was exactly at 4:58 a.m in the morning, because I looked at the clock, and I woke up, I usually don't wake up that early, but I woke up and I looked at the clock. And all of a sudden I was in the middle of watching what was going on. It was like a huge movie production and I was right in it watching it happen. I saw what would happen.

SID ROTH:

Now tell me the one or two of the things that you saw and then President Trump said the exact thing you saw.

IVAN TUTTLE:

Well I saw how China was going to own the United States.

SID ROTH:

Really?

IVAN TUTTLE:

Yes exactly.

SID ROTH:

I mean I've seen that but President Trump actually used that terminology.

IVAN TUTTLE:

The exact same words, yes, and then the other exact same phrase that he used was how Russia was upset about us "fracking" and how Biden and them would get rid of that so that they could come in and they would be a superpower for oil and natural gas because of their connection with Iran.

SID ROTH:

Well, now you tell me what you saw in this, I'm going to call it movie.

IVAN TUTTLE:

Yes it was like a movie. I mean it was just, it was so real. It's like you could just reach out and touch it.

SID ROTH:

Was it in color ?

IVAN TUTTLE:

Oh yes, it was in color yeah.

SID ROTH:

Was it more than one dimensional?

IVAN TUTTLE:

Yes

SID ROTH:

Was it three-dimensional?

IVAN TUTTLE:

It was three-dimensional. It was like being in it. It was like you could just reach out and touch somebody. I mean, I was watching this exactly how it happened. And here's what happened. All of a sudden, it opened up and I saw the date February 2022. February 2022. If they take over, if they were to get into office, what they would do, and it would be...

SID ROTH:

And that would be the democrats?

IVAN TUTTLE:

It would really be more Kamala Harris than Biden, because he'll be kind of like quieted down. He's like a puppet with them right now. And that's what's going to happen, and so what they're going to do is they're going to allow (and watch this happen) they allow Russia to do some things from the east (and I'll explain that in a second) but the big thing at first was I saw and I was looking and I could see on the west coast how China was coming in. And as China was coming in, they were just buying everything they could, every business, starting from the west coast just going straight through the United States.

SID ROTH:

They've actually been doing this for some time.

IVAN TUTTLE:

Oh because Biden and Kamala Harris are going to open up all the borders. They're going to open up all the walls, they're going to overturn everything that Trump has [done], including our taxes, they're going to overturn everything.

SID ROTH:

Including our tax break that he gave?

IVAN TUTTLE:

Yes, our tax break yes. All of the different things that he has set up with other countries, they'll just get rid of all of it. They'll get rid of everything. They'll open the borders. Defund the police is not even what you would call it, it's going to be worse than that. It's going to be worse than defunding them, but what's going to happen is that China is going to start sending people over as well, not just buying the place but what happens is that they are setting up for Biden and Kamala Harris and some other people in that party so that they'll be financially set. And that's what will happen if they move in. Now that would be illegal normally, but they can make the rules the way they want to make them so they can make it so that "oh well I'm not in office anymore I can take this money". So I watched this as they moved in, and I mean it was scary. I mean they literally took over and we had the the riots that are worse than what they are now. I wouldn't even call it a riot. it would just be--it's just chaos. Now this really turns loose on February of 2022. That's when it's going to just go Haywire. It's going to take them a little over a year to just unwind everything and start letting everything become lax and China's going to rush right in. They've got to rush in quick. And then Russia, Russia is going to go ahead and start supplying natural gas and oil because they're making a pact with Iran.

SID ROTH:

Wow.

IVAN TUTTLE:

And we're going to make a pact with Russia and Iran, as well, in order to get that oil at a cheap price to come into the United States. (Well it's not cheap, trust me, it's going to be up there) but it's going to be for kind of making deals and making bargains and everything. That's we're going to do. So what's going to happen is that Russia is going to actually raise the prices. They're going to keep raising the price so everybody on the east coast, a lot of people on the east coast, they heat with heating oil, you know, like kerosene, and those prices are going to go sky high and the people are not going to be able to afford it. Because so many businesses are going to be out of business anyways by then and all they want you to do is depend on the state, and in February of 2022 that's when chaos really enters in. China will be coming from the west coast, Russia is basically

hitting from the East Coast, and they're going to take over the United States. They really are. And we're going to let them. If Biden and Kamala Harris get in, we just open the door and say, "Please come in". And they will own everything we have, everything. All these big buildings that we have, government buildings, everything, they're going to own. Now Russia is going to get their fair share too but not as much. China's really going to own. China has been wanting to take over the United States for years. Not just our economy, they want the United States. Now, you know, Sid, I didn't finish explaining this part to you and apologize, but one of the things they're going to do too is they're going to create chaos in Asia. I'm talking about South Korea, I'm talking about Japan. You know, those countries are going to be under such heavy, heavy persecution, in so many ways. And they're going to try to move their people in. And that's what they're going to do and that's how they're going to do it. Starting from the west (for us, it's the west, where china is coming in) and you're going to see it happen because, all throughout California, all throughout the state of Washington, Oregon, those main states over there, it's going to be just total chaos. Things are going to happen. It's unreal but we can't we can't allow that to happen. So that that's that's the worst part of it, Sid. That's what they're going to do.

SID ROTH:

Well I have to tell you Ivan... and I also have to tell you [the audience] what I asked Ivan after he told me this. I asked him two questions. How long would it take for America as we know it to be as dismantled as you saw in that movie?

IVAN TUTTLE:

Sid, it's only going to take a year, a little over a year. Well you got to realize that once they drop everything that has been going on for the last four years, once they get rid of everything, then this chaos comes in. It just takes a year for it to happen a little over a year.

SID ROTH:

But you told me you knew who was going to be President of the United States.

IVAN TUTTLE:

Yes. That's Donald John Trump.

SID ROTH:

So why would God give you this particular dream / vision?

IVAN TUTTLE:

To warn people that if you don't get out and vote and you don't get out and put this man back in office, that's what's going to happen to our country.

This is something where right now (it's not because of just giving him in Office) it's getting the right man in the right place at the right time. He's going to get there, but we're supposed to do something about it. You know, it's like there's wars that happen (if you read in the old testament there was wars and things that happened) and God gave them victory over things. Well, we have to do our part and we're supposed to go out and vote. We're supposed to get people, we're supposed to speak up, we're not supposed to sit back and keep our mouths shut. You know, what happened with Roe v Wade is we sat on our hands and did nothing, and we can't afford to do that anymore for anything. We just can't. And God allowed me to see what would happen if Christians just went "You know, whatever. I'm just going to sit back. I don't know about this man." Listen, he's not a preacher, he wasn't sent there to be a preacher. He was sent there to be our president. And he's been doing things that nobody else has ever done. And if we can't see that, we're blind. We're spiritually blind. And we need to we need get out, we need to become active. You know myself, I've been giving money, I've been donating. I do things like that to his campaign because I believe in him and that's something that I think people need to realize. That we have to do more than what we've done. God didn't give me this vision just for the fun of it; He gave me this vision as a warning. "Hey, listen. If my people" (and that's how we put it) "if my people" (bible)... and we have to we have to humble ourselves. We have to speak up too. We have to get out and do something. The day of sitting back and being quiet, it's over, and if we if we sit back and be quiet, we're doomed.

SID ROTH:

Yeah, you know Ivan, there's something I don't understand between you and me and I guess the Christian family that are watching. I've studied the Bible which is the best book on history there is, and there's a precedent that God establishes. And all sin is wrong (don't get me wrong) but there are three

sins that causes the land to vomit out its people. And you study this in the bible. The first sin that causes this to happen, you mentioned, it was called child sacrifice but now it's called a nice medical term, "abortion". But killing babies, the shedding of blood, that's what the devil requires, innocent blood shed like that. And God doesn't need that. He already had the most innocent one that ever lived die, His son Jesus. And then the second thing is the institution of marriage as God created it between a man and woman. And the third great sin to God is to come against the Jew in Israel. God says in Genesis 12:1-3 "I, God will bless those who bless the Jewish people and I will curse those who curse them and in their seed (and that seed is still going on today) the whole world is going to be blessed because that seed is in every true Christian.

IVAN TUTTLE:

Amen.

SID ROTH:

The truth of the matter is, I don't understand how a knowledgeable Christian could support any candidate that is against those three biblical principles. I don't understand it, Ivan, it's a spiritual thing. what is it?

IVAN TUTTLE:

You know Sid, it's really not spiritual, it's religious, and I'll explain that what I mean by that. The people have gotten so far into a religion aspect of things, and the acceptance of everything, here's what happens. As Christians we started accepting sin into the church. Now I'm being real blunt here. They started allowing abortions, you know, and they started going along with that. And they started allowing, you know, other types of marriages other than you know man and woman. And then they started saying, "Well maybe Israel, you know, maybe the Jewish people are not the chosen people anymore." And that has become a religion that's taught and it's wrong it's completely opposite of what the Word of God says. And the Word of God says we're not supposed to murder those children and it's murder. I don't care how you look at it, it's murder. They're murdering these little innocent babies. They haven't had a chance yet and when I was in heaven, if you don't mind me just saying this, all these little babies, all of them, every one of them are in heaven. Every single one of them, waiting for the parents,

hoping that the parents change and turn their lives around. That's what they're hoping.

SID ROTH:

And I have to interject something. As long as you know it's wrong and you really repent (repentance as the bible describes it) God will remember your sin no more. So the truth is there is forgiveness for those that have done it but this global greater glory is about ready to invade our planet at degrees and levels like the world has never seen. **And you better get your house in order. What do I mean by your house? Live in instant repentance. Because God says (not religion), God says without holiness you won't even see him.** Ivan would you do anything to miss heaven? You've been there. I haven't.

IVAN TUTTLE:

Sid, I'm not going to even cross the street at the wrong place okay? I mean I know that sounds crazy but I mean you have to understand, once you've been there, and I've been to both places [heaven and hell], once you've been there it's like you never ever ever... you know, you've got to get back there. That's what you live for, this is what we're supposed to live for. We're supposed to live to go there. That's what our life is about, you know. **Our life is about not just us, but to take everybody we can with us up there**

SID ROTH:

You know, now the glory has just descended on what we're saying, and if there is anyone that needs to repent of anything (and by the way you don't have to dig a thing up, you know what you need to repent of) and biblical repentance is involved with a word called grace. But it's understanding grace. True biblical grace comes into play when you repent and then God gives you the power to overcome the sin. You need god to overcome that sin. You cannot do it by yourself, but God and you are a majority over the devil. That I can tell you. Ivan thank you so much for being a guest. **And remember what Ivan said. If my people will humble themselves and fast and pray, I will heal their land. Be praying for that election every day. And don't take the freedoms we have for granted. Vote. Vote. Vote.**
