

# Aimee-Semple McPherson & CA Prophecy

Rich Vera on Sid Roth's It's Supernatural

RICH VERA:

So, if you notice the fires. You know, the floods happen on the East Coast, ( in Houston and it happened in Puerto Ric), and the fires happen on the west. Now, the Lord spoke to me and I prophesied this a few months ago at my church, and the Lord says "The fires symbolizes judgment." And the Lord says, "I'm judging the system that is corrupting society in the nations of the world." And the Lord says everything that comes from Hollywood, from California, impacts the nations of the world." Whatever we watch on television, people in Africa, they want to be like the Americans, they watch on television, people in Argentina, they all want to be like what they see on television. And literally from that [one] state, it has corrupted the morality of the nations of the world.

And The Lord was telling me "I'm judging that spirit. There is a stronghold in California that affects the rest of the world." And the Lord says "I'm judging the system", and then when God is done judging the system and removing those that have been used of the enemy, to allow the corruption to continue. God says, "I'm going to strengthen my church", and God was going to empower the church on the West Coast.

I saw the church on the west coast as a feeble man that could not even move or get out of bed. And the Lord says "That's the condition of the church on the West Coast."

And God says of this great cleansing, God says "He's going to empower the church to go back to the days of Aimee Semple McPherson." When this lady by herself impacted the whole state, and souls were saved. And whether anybody liked it or not, she had an incredible impact with the gospel.

SID ROTH:

It was so amazing. I mean, her background, you would say, “How could God ever use her?” Right? I mean, she's divorced, a couple of children. And a woman preacher in those days.

RICH VERA:

That's true. And that's coming back in this generation.

I want to prophesy to the church on the West Coast. This is the season to rise up and to let the spirit of fear be put aside.

God is going to anoint you with the ability to speak the gospel with boldness, and God wants to bring back the conviction of the Spirit. God wants you to know that you will be protected if you speak the gospel signs and wonders will follow you and you will not be destroyed by the enemy in this season.

SID ROTH:

I'm reminded of a prophesy my friend Keith Ellis had when he was on my show. And he said God showed him Wonder Woman was arising. Women are going to be Wonder Women in the miracles in signs and wonders.
